## 6. CAREER INFORMATION

What influenced you to make this application?

I have developed a passion for programming and I want to enhance my knowledge and improve my programming skills. After reviewing your website, I liked the types of software that was being developed and I feel that I would enjoy working at Applied System.

Please outline the specific knowledge, skills and personal qualities that you possess and consider to be particularly relevant to this application.

I am very passionate about my work and hardworking and I am willing to learn new languages. I have good knowledge of Java, C# and SQL which I developed through my studies.

I feel that I have good team working skills and communication skills which I have enhanced through previous work experience and working with customers. I can also use my own initiative to complete tasks as I have good organisational and time management skills which has been a great help when trying to meet deadlines at university and during my previous internship as I was daily tasks to complete.

What are your immediate and long-term career objectives?

My immediate career objective is to get a job as software engineer and improve my programming skills and learn as much as possible.

One of my long term career objectives would be to earn a senior software engineering role or even management role however I enjoy working on my own projects in my spare time which one involves a social networking website, another long term objective would be to launch this website once finished.

# Application Form

State briefly any other information, which in your opinion, may be of interest in considering your application.

Research new technologies and programming are a few of my interest, I am always keeping up to date with the latest technology. I am always trying to improve my knowledge of programming as I am currently learning new languages I enjoy working on my own projects as I like to build some basic mobile games using a programming language called Lua and also enhancing my knowledge of Java, C# and SQL. I also like design and developing websites as I am currently creating a social networking website.

## 7. RECREATION AND INTERESTS

Please give details of special interests, hobbies, or sports/games you play.

I have passion for music as I can play the tenor banjo and the guitar. I take part in the Comhaltas in Warrenpoint and during secondary school, I was apart of many music groups such as the St. Marks orchestra and the traditional group. As a result of this, it has improved my team working skills and my confidence through performing at events and competitions.

I also have an interest in soccer as I currently volunteer for my local soccer team and help coach the under 17s team with my brother in law and I hope to achieve some coaching certificates in the future.
